PROOF POINTS

100K+ daily users served	99.9% production uptime	30% cloud cost reduction
-----------------------------	----------------------------	-----------------------------

EXPERIENCE

Senior DevOps Engineer Dec 2022 - Present
DealCart.io · Remote

- Manage AWS infrastructure across ECS, RDS, S3, CloudFront, SQS and Route 53 for a fast-growing grocery platform.
- Architect Docker-based microservices on ECS with autoscaling, load balancers and deployment controls.
- Built CI/CD using Jenkins, CodePipeline, CodeBuild, CodeDeploy and Azure DevOps.
- Reduced monthly cloud spend 30% through rightsizing, reserved capacity and automated scaling policies.
- Led AWS to GCP migration work; ran Kubernetes clusters and centralised logging/security with Splunk.

Senior DevOps Engineer Jul 2018 - Dec 2022
OPTIMYSE

- Managed AWS EC2, RDS, ECS and S3 for enterprise applications serving 50K+ concurrent users.
- Implemented Jenkins, GitLab Runner/CI and Azure DevOps pipelines; provisioned with Terraform and Ansible.
- Reduced cloud costs 25% using rightsizing, spot instances and off-hours scheduling.
- Ran API management with Kong and Konga across dev, integration and production environments.

Assistant Manager, DevOps Oct 2014 - Jun 2018
Nexus Corporation

- Scaled Linux servers, automated operations and delivered CI/CD with Jenkins and Docker.
- Maintained Laravel/MySQL applications and managed DigitalOcean infrastructure.

CORE STACK

AWS	ECS	EC2	RDS	S3	CloudFront	Route 53
SQS	SES	Docker	Kubernetes	Terraform	Ansible	
Jenkins	GitLab CI	Azure DevOps	GitHub Actions			
CodePipeline	CodeBuild	CodeDeploy	Prometheus			
Grafana	CloudWatch	Splunk	Linux	GCP		

SELECTED WORK THEMES

- High-traffic AWS platform operations for e-commerce and grocery systems.
- Docker release pipelines across Jenkins, GitLab, GitHub Actions and AWS CodeSuite.
- Infrastructure cost optimisation, autoscaling and observability improvements.
- Independent products and internal tools including WhatsApp Mailbox, ExpenseTracker, Solar Monitor and CV Builder.

CERTIFICATION

AWS Certified Solutions Architect - Associate Issued Apr 2025 · Expires Apr 2028 Credential 447ac4b2...83671

EDUCATION

B.Sc. Computer Science
Dadabhoy Institute of Higher Education, 2016
